# 2023 Q1 BCDC Specimen Metadata Submission and Report Generation

#### **STEP 1:** Register for an account on the Ingest System

• Register for an account on the online tool by emailing your ORCID ID to the team at <a href="mailto:data.curation@alleninstitute.org">data.curation@alleninstitute.org</a>. You will use your ORCID ID and password to login to the tool.

### **STEP 2:** Prepare your specimen inventory using the template file.

• The sample metadata template can be downloaded from the BCDC Metadata Github repository here: template and instructions. YOU MUST USE THE TEMPLATE FILE FOR UPLOAD TO THE INGEST TOOL OR THE UPLOAD WILL FAIL. Add the specimen metadata for your 2023 Q1 submissions directly in the spreadsheet. You can add metadata for multiple data collections in the same inventory. Contact us if you have any questions or would like us to review your inventory before upload.

## STEP 3: Login to the ingest tool at https://bcdc.ingest.brain.allentech.org.

### **STEP 4:** Upload your specimen inventory file to BCDC on the 'Upload' tab.

- Click the 'Upload' tab at the top of the page. This page is the form for submitting your inventory file (see screenshot below). Click on the 'Browse..' button to select the completed .xlsx workbook from your computer. The other fields in the form can be filled out as follows:
  - o Name: An identifier label for this upload, e.g. 'U01 Baker 2023Q1 Specimens'
  - Description: Additional description of this upload e.g. 'test\_retro samples to NeMO'
  - Notes: any other notes for this upload
  - Tag: Select 'specimens\_2023q1\_mouse' for mouse data, or 'specimens\_2023q1\_human' for other species.
  - o Project: Select 'default' from the project dropdown.
- Click 'Submit' to submit the inventory file. It may take a few seconds for the upload to complete don't reload the page. When the upload is finished, your new upload will appear in the table
  below the Submit button.
